

Planning principles

Functional structure of site

Housing program

Housing program
The re-sourced Bruksstaden contains a varied and diverse collection of housing.

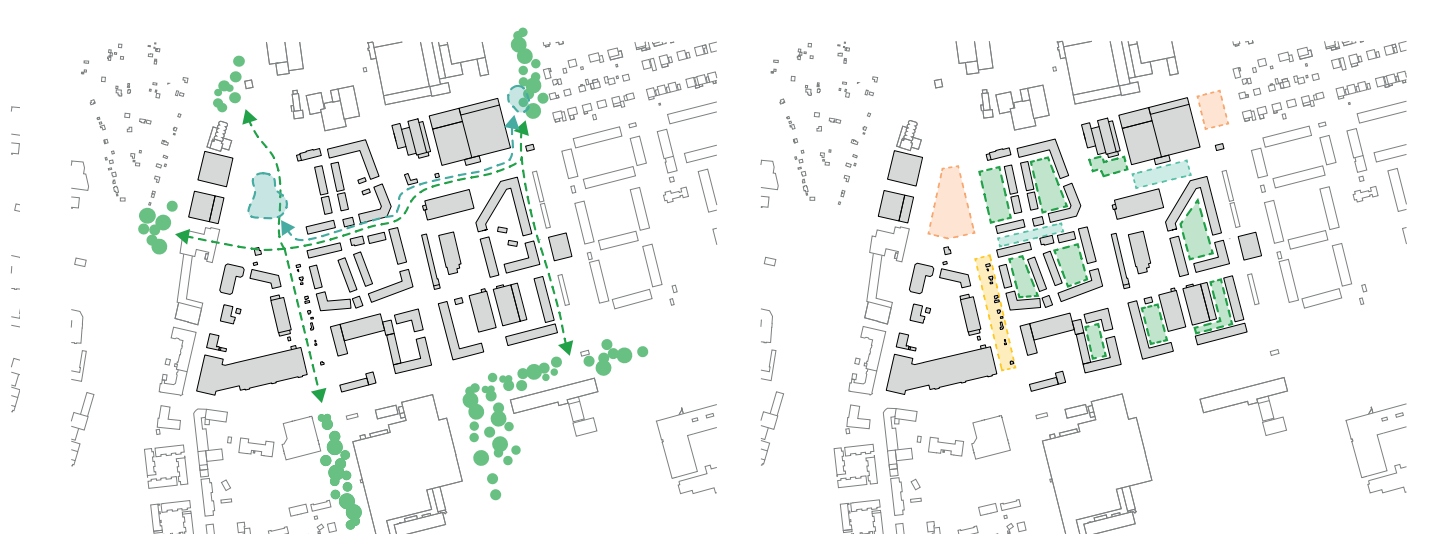

Cultural and public program

Cultural and public program
The re-sourced Bruksstaden contains a varied and diverse collection of cultural, pedagogic and public functions.

Bike and pedestrian strategy

bike and pedestrian strategy
Good and functional streets and paths exist for bikes and pedestrians.

Ecological strategies

Strategies for greenery and biodiversity

Green and blue corridors

Green and blue corridors
Green corridors connect the area's flora and fauna with the surrounding nature. Blue corridors act as a connector for the area's flora and fauna and makes it resilient to flooding.

Variation of micro-biohabitats

Many different habitats allows for a higher diversity of species in the area.

Ecological strategies

Scheme of species in the area and structure of the areas ecosystem
